# Nuclear installations not safe, says JUI

Updated on 3/12/2002 9:38:52 AM

QUETTA (Online): Jamiat-e-Ulema Islami Secretary General Maulana Abdul Ghafoor Haidry on Monday said that due to wrong policies of Military regime country's nuclear and other installations were under threat.Addressing the party gathering here, he said that the United States and its allies had established permanent basis in Pakistan, as the whole nation was hijacked in the hands of these powers including nuclear installations of the country.

He claimed that US government had formally started setting up its colonies in the country to achieve its ulterior motives against the Muslims.

He expressed the apprehension that if military regime continued to persist with its policies it would create disaster for Pakistan in the future.

He said that owing to the ongoing war in Afghanistan Pakistan had lost US\$ 5 billion, however, US government had only writ off loan of only US\$ 1 billion.

Abdul Ghafoor observed that clash of civilisations had started in the world, as anti Muslims powers have become united against the Muslim country to suppress them under the pretext of war against terrorism.

He added, "we want restoration of 1973 constitution in its real essence and Islamic system in the country." Commenting on riots in India, he strongly condemned the massacre of Muslims by Hindu fanatics, which exposed the Indian government before the world about its claims being a secular and moderate state.

He regretted that international humans rights organisations have become silent spectators over the killing of innocent civilians in India and Palestine.

He urged the Islamic and other countries to put pressure on Indian government to stop the carnage in India on emergency basis.
